

Music Bingo 30

How To Play

Music Bingo 30 is a fun and exciting twist on the classic bingo game, with 30 popular songs from various genres and decades. Each player receives a bingo card with four 3x3 bingo boards containing the title/artist of the songs being played.

You have also received a link to a Spotify playlist that is adapted to the music bingo.

As songs from this playlist are played, they are marked off on the bingo board, and when one of the players has marked off all 9 songs on one of the 4 bingo boards, a winner can be declared.

A good tip is to set Spotify playback to random, that way you will always get a random playback and unique completion of the music bingo.

Usually, it is enough to play about 60 seconds of a song, but it may also be a good idea to control it by verse and chorus, e.g. play until the first chorus is finished. Normally, more than 20 songs must be played to achieve bingo, but this depends on how many boards are in the game. When hosting a music bingo game, it is crucial to adapt the tempo to the group of players participating.

In addition to the bingo boards, it also comes with a PDF file with an overview of the songs, as well as a link and QR code to the Spotify list.

A small tip is that you check off this playlist as songs are played, and in that way, you have a slightly easier task when you control whether it is a valid bingo or not.

If this music bingo has access to digital bingo boards, you should have received a six-digit code. Those who want to play music bingo then go to www.musikk-bingo.no and enter the six-digit code, and they will then have a bingo board available on their mobile.

Read more here about how this is played: <https://musicbingos.com/digital-musicbingo-boards/>

Good luck! And remember, at <https://www.musicbingos.com/faq> you may find answers to different questions.
