

Music Bingo 60

How To Play

Music Bingo 60 is a fun and exciting twist on the classic bingo game, with 60 popular songs from various genres and decades. Each player receives a bingo card with four 5×3 bingo boards containing the titles of the songs being played. The bingo boards contain all the songs from the playlist. In this type of game there are 3 bingo winners. The first winner is when one has filled one of the rows (i.e. 5 songs), then there are two rows within the same frame/box, and finally three rows within the same frame/box. The songs are marked off as they are played.

You have also received a link to a Spotify playlist that is adapted to the music bingo.

A good tip is to set Spotify playback to random, that way you will always get a random playback and unique completion of the music bingo.

Usually, it is enough to play about 60 seconds of a song, but it may also be a good idea to control it by verse and chorus, e.g. play until the first chorus is finished. Normally, around 42 songs must be played to achieve bingo, but this depends on how many boards are played. When hosting a music bingo game, it is crucial to adapt the tempo to the group of players participating.

In addition to the bingo boards, it also comes with a PDF file with an overview of the songs, as well as a link and QR code to the Spotify list.

A small tip is that you check off this playlist as songs are played, and in that way, you have a slightly easier task when you control whether it is a valid bingo or not.
